Disposal of the Truck business

On June 30, 2017, Plastic Omnium definitively sold its Truck composites business to the German group mutares AG.

This body parts and structure design and manufacturing business for the truck industry, which employs 1,500 people, had revenue of approx. €200 million in 2016 for its 9 production sites (5 in France, 1 in Germany, 1 in Mexico and 2 in China). Its sale will have an accretive impact on the Group’s profitability.

Plastic Omnium, world leader in exterior components, modules and structural parts, as well as fuel systems for the automotive industry, continues its profitable growth strategy in safe sustainable mobility.
